

# Scandinavian Pet Design Pet Pen

The uses for the pet pen from Scandinavian Pet Design are unlimited. You can put this pen anywhere – indoors or outdoors and use it with or without a mat.

The Pet pen can be used instead of a Pet gate, letting you control the pets access to the home, the yard or other places which are off limit to your pet.

The Pet pen can also be used as a room divider.

There are five panels and one door section to each pen.
