Barrier nets & screens model RD-A **OPTIONAL** **standard brackets**

Order Code	Description	without VAT, €:	with VAT, €:
KitRDA-P65	RDA barriers standard fixing system, for EXTRACTABLE headrests made by two brackets with standard bushings; Keeps the barrier 65 millimeters behind the headrests bars	14,17	17,00
KitRDA-P100	RDA barriers standard fixing system, for EXTRACTABLE headrests made by two brackets with standard bushings; Keeps the barrier 100 millimeters behind the headrests bars	15,00	18,00

IMPORTANT

Each RDA 65 and RDA100 divider pack includes the corresponding fixing systems. Kits listed above should be considered as alternativ to the ones already included in the standard pack or as a possible component to be bought in case of car replacement, if the new car requires a different fixing system.

Barrier nets & screens model RD-A **SPECIAL** **brackets**

Order Code	Description	without VAT, €:	with VAT, €:
KitRDA-PS	RDA barriers special fixing system, for NON EXTRACTABLE headrests made by two brackets with opening bushing; Bought as spare parts	43,33	52,00
KitRDA-PSD	RDA barriers special fixing system, for NON EXTRACTABLE headrests made by two brackets with opening bushing; Bought as substitute of the standard brackets	29,17	35,00

IMPORTANT

In this special headrest kit the bracket's terminal parts that fit to the headrests are made of two parts tightened together by screws. This kit is needed when the headrests can't be removed from the backrest of the backseats or when the headrests bars are shaped so that the standard bracket does not fit.

If a RDA65 Divider is required at the beginning with an opening bushing kit, only the difference between this one and the standard one will be charged. In this case to order a Divider RDA65 with opening bushing brackets, both for online and for fax order, please use divider code RDA65-size + KitRDA-PSD.

Barrier nets & screens model RD-A **OPTIONAL** **complete fasteners**
